

Increased durability

Faster and tighter ties

More power: 18V 4Ah slide-in battery

Brushless motors

Optimised ergonomics

TJEP ULTRA GRIP

ALL BRUSHLESS
MOTOR TECHNOLOGY

The ultra-strong solution!

TJEP ULTRA GRIP

- Faster and tighter ties
- Optimised and robust design ensures easy access to the item and long life.
- Approx. 3200–5000 ties per charge.
- Supplied with two Li-ion batteries, charger and two coils of wire in a robust plastic case.
- Use TJEP ULTRA GRIP WIRE

EASY AND FAST TORQUE ADJUSTMENT

The new digital control panel ensures easy and fast torque adjustments, while the clear display gives you a quick overview of the current torque setting and number of wraps.

Increase efficiency with TJEP ULTRA GRIP

TJEP ULTRA GRIP re-bar binder increases your efficiency and improves your work environment significantly compared to the physically demanding, monotonous and time-consuming work of manual tying.

TJEP ULTRA GRIP is the third generation of re-bar binders from TJEP and is a further development of our popular XP re-bar binders. The know-how gained from previous generations has been incorporated into the new ULTRA GRIP series, which sets new standards in tying speed and quality.

- The newly developed nose and handle design optimises access to the point you want to tie.
- The powerful 18V 4Ah Li-ion slide-in battery ensures long operating time.
- The brushless motors ensure faster and efficient tying, with only 0.6-0.8 sec. per tie – making you more efficient on the job.
- The tight and uniform tying ensures the work can be executed without interruptions.

In other words, the TJEP ULTRA GRIP series is your guarantee for the market's best overall budget when it comes to tying reinforcement rods or similar items.

**ULTRA STRONG
AND TIGHT TIES**

TJEP ULTRA GRIP 25 RE-BAR BINDER

- 1 18V brushless motors
- 2 Sealed gearbox for extra power
- 3 Optimised nose design with long lifetime, ensuring easier access to the point you want to tie
- 4 Longer and narrower handle for better ergonomics
- 5 18V 4Ah Li-ion slide-in battery
- 6 Connector for electronic extension

SPECIFICATIONS

Item no.	124012
EAN no.	5702551240120
Dimensions (L × W × H)	281 × 109 × 300 mm
Weight	2.5 kg
Tie point thickness	8-25 mm
Tie speed	0.6 sek.
Ties per coil	160-225
Wraps per tie	2 or 3
Ties per charge	+5,000 (with 3 wraps)

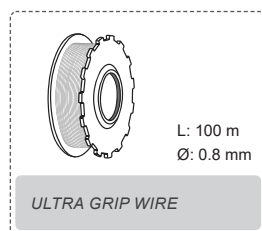

ACCESSORIES

Description	Item no.
TJEP battery charger for TJEP ULTRA GRIP	124205
TJEP extension bar	124202
TJEP holster	124203
TJEP lithium-Ion battery 4,0Ah	124204

APPLICATION

- Pre-fab
- Roads and bridges

TJEP ULTRA GRIP 40 RE-BAR BINDER

- 1 18V brushless motors
- 2 Sealed gearbox for extra power
- 3 Optimised nose design with long lifetime, ensuring easier access to the point you want to tie
- 4 Longer and narrower handle for better ergonomics
- 5 18V 4Ah Li-ion slide-in battery
- 6 Connector for electronic extension

SPECIFICATIONS

Item no.	124002
EAN no.	5702551240021
Dimensions (L × W × H)	297 × 109 × 300 mm
Weight	2.6 kg
Tie point thickness	12-40 mm
Tie speed	0.7 sek.
Ties per coil	120-160
Wraps per tie	2 or 3
Ties per charge	+4,500 (with 3 wraps)

ACCESSORIES

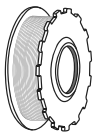

Description	Item no.
TJEP battery charger for TJEP ULTRA GRIP	124205
TJEP extension bar	124202
TJEP holster	124203
TJEP lithium-Ion battery 4,0Ah	124204

APPLICATION

- Pre-fab
- Foundations and footing
- Roads and bridges
- Swimmingpools
- Floor heating

TJEP ULTRA GRIP 58 RE-BAR BINDER

L: 100 m
Ø: 0.8 mm

ULTRA GRIP WIRE

- 1 18V brushless motors
- 2 Sealed gearbox for extra power
- 3 Optimised nose design with long lifetime, ensuring easier access to the point you want to tie
- 4 Longer and narrower handle for better ergonomics
- 5 18V 4Ah Li-ion slide-in battery
- 6 Connector for electronic extension

SPECIFICATIONS

Item no.	124022
EAN no.	5702551240229
Dimensions (L × W × H)	312 × 109 × 310 mm
Weight	2.8 kg
Tie point thickness	30-58 mm
Tie speed	0.8 sek.
Ties per coil	80-96
Wraps per tie	3 or 4
Ties per charge	+3,200 (with 4 wraps)

ACCESSORIES

THE PERFECT CHOICE ...

An experienced partner

KYOCERA UNIMERCO Fastening A/S has extensive experience in providing advice, and in the sales and servicing of re-bar binders. The product range includes TJEP re-bar binders, tying wires and accessories that are well-suited to the tying of reinforced rods, underfloor heating pipes and more.

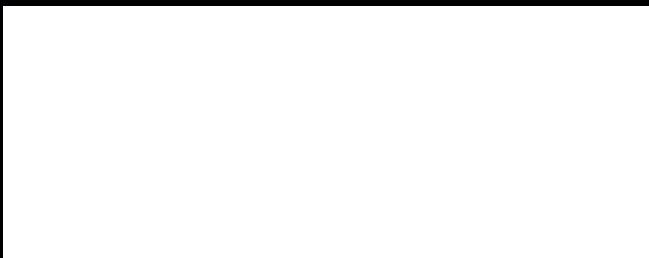

A wide range

For more than 50 years we have been a leading supplier of nail guns, nails and accessories in Europe. Today, the TJEP series has more than 70 different models of compressed air and gas-powered nail guns, staplers and finish nailers with an associated wide range of fasteners. The TJEP series also includes a number of compressors, re-bar binders, cutting and bending machines and more.

Details that make all the difference

We believe in doing things well and exceeding expectations. Therefore, high quality, professional advice and good service are cornerstones of our business philosophy.
